## 2019 CONFERENCE: BRIDGING THE GAP APRIL 16 - 18, 2019

The 2019 31<sup>st</sup> Annual Conference invites fresh perspectives and new shifts in thinking, which examine trending challenges and advancements toward diversity, equity, and inclusion across industries and engages our community around these compelling questions:

- *How can we effectively address the gaps in values and beliefs that are causing toxicity at work?*
- *What must we do to bridge the gap from the inclusion of diverse perspectives and experiences to the integration of diverse perspectives and experiences?*
- *How must we examine cultural power and privilege in order to bridge the gap between empowerment and power?*
- *What is required to bridge the gap between technology (robotics, artificial intelligence, virtual reality, augmented reality, etc.) and human experience, wisdom and insight?*

The **three-day conference** offers introductory, mid-level, and advanced learning opportunities across six learning and three industry tracks by offering general sessions, breakout workshops, one on one coaching, and more. The Forum's annual conference provides multiple learning pathways for personal, professional, and organizational development.
